

## Admin Functions Testing

## 1. View All Users:

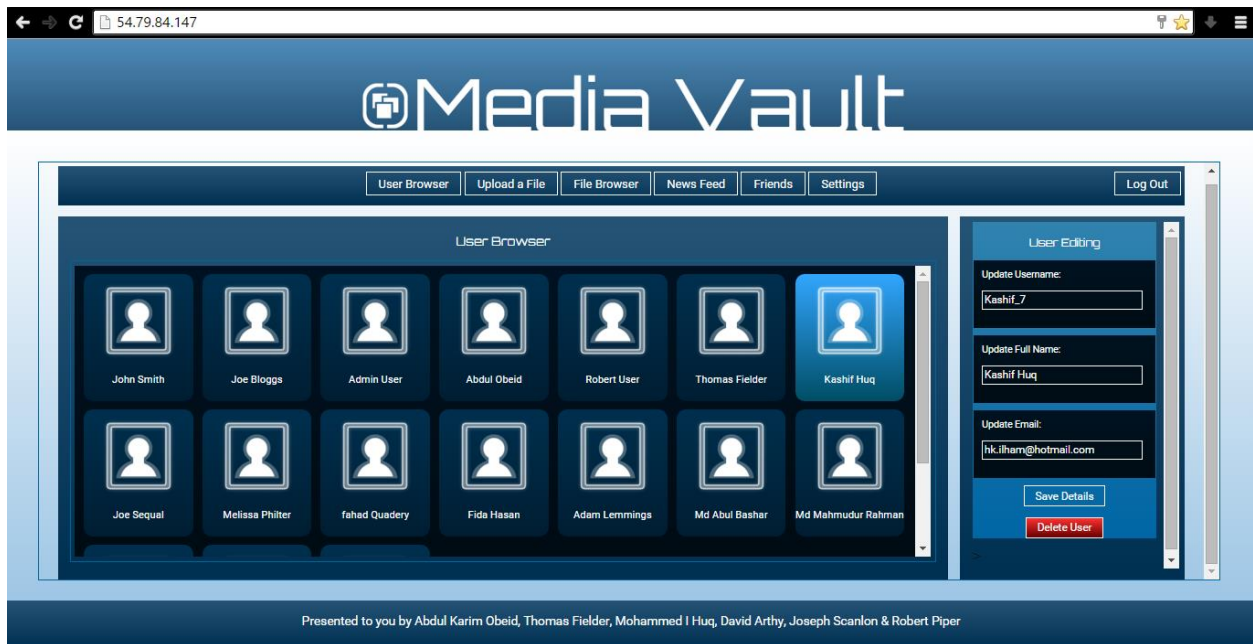

Viewing all users registered in the website.

## 2. User Editing:

- Selecting an user

- Changing the details

### 3. User's file editing:

- Changing user file details, which due to wrong extension was not viewable.

- User file viewing after editing

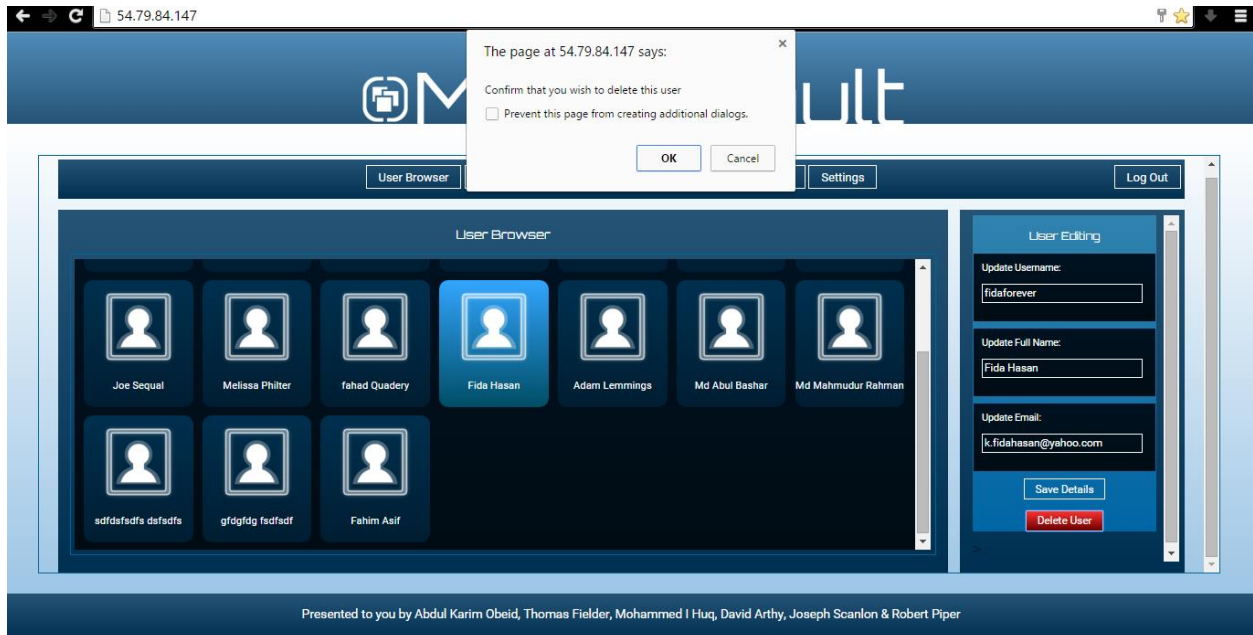

#### 4. News Feed:

- Admin newsfeed

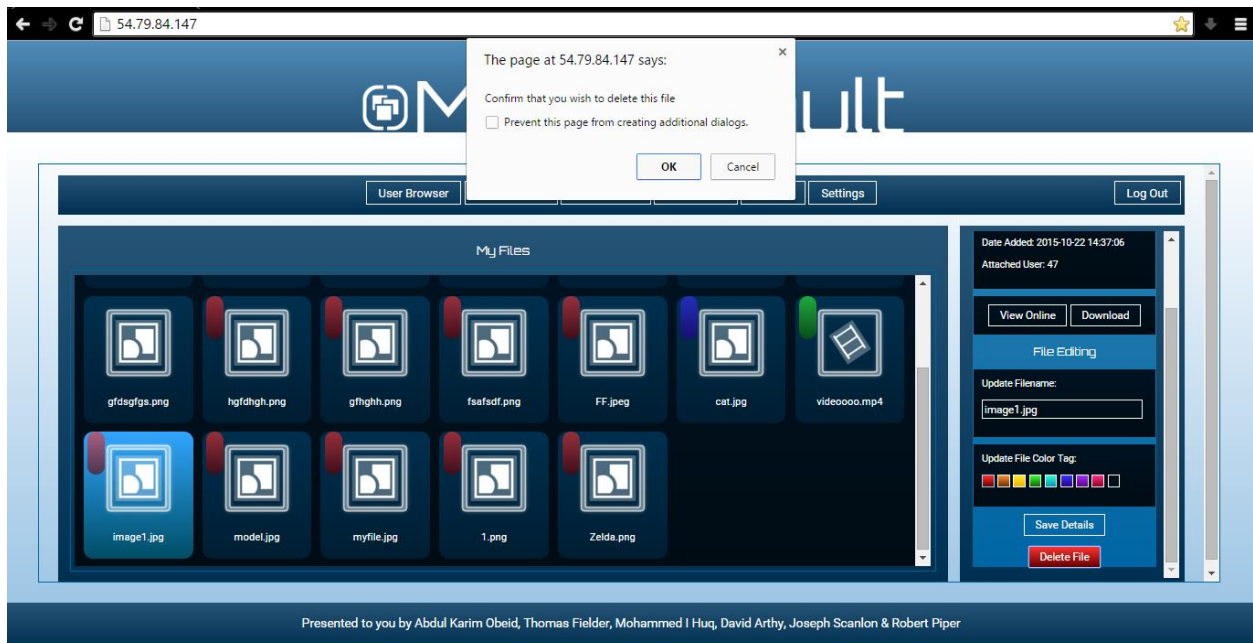

## 5. User Deletion Warning:

- Admin will have to confirm again before deleting an user.

## 6. File Deletion

- Same as user deletion, will have to re-confirm for user's file deletion.

- File Successfully Deleted
